Book Reviews:

——, Pendulum gravity measurements at sea 1936–1959 115
——, Antarctica 116
——, Handbook of Geophysics and Space Environments 225
——, United Kingdom—Contribution to the Upper Mantle Project 226
——, Mining Geophysics 227
——, Electromagnetism and the Earth's Interior 319
——, The Solar Atmosphere 539
——, The Solar Wind 539
——, Giant Meteorites 540
——, Photographic Atlas of the Moon 541
——, Principles of Direct Current Resistivity Prospecting 542
——, Handbook of Physical Constants 543
——, An Introduction to Magneto-Fluid Mechanics 543
——, Science since 1500 544
Booker, J., E. C. Bullard & R. L. Grasty, Palaeomagnetism and age of rocks from Easter Island and Juan Fernandez 469
Bowden, K. F. & R. A. White, Measurements of the orbital velocities of sea waves and their use in determining the directional spectrum 33
Briden, J. C., A new Palaeomagnetic result from the lower Cretaceous of east-central Africa 375
Brooke, M., Regional gravity anomalies attributable to basic intrusions in orogenic belts 29
Brownlow, A. E., W. Hunter & D. W. Parkin, Cosmic spherules in a Pacific core .. 1
Bullard, E. C., R. L. Grasty & J. Booker, Palaeomagnetism and age of rocks from Easter Island and Juan Fernandez 469
Carovillano, R. L. & J. J. Maguire, The energy of confinement of a shielded magnetic dipole field 23
Cleary, J., Array and multi-station analysis of an earthquake in Cornwall : a comparative study 437
Collette, B. J., R. A. Lagaay, A. R. Ritsema & J. A. Schouten, Seismic investigations in the North Sea 363

Continental structure:

——, Small changes in seismic distributions of velocity, Sir Harold Jeffreys 113
——, The generalized problem of Lamb. I. The reflection and transmission of pressure and shear waves generated by an explosion in a two layered spherical Earth, G. E. Tanyi 117
——, The generalized problem of Lamb. II. Generalized Stoneley waves in a fluid–solid spherical interface, G. E. Tanyi 149
——, The generalized problem of Lamb. III. On a space-time representation form for generalized Rayleigh and Stoneley waves 161
——, Point source in a layer overlying a semi-infinite solid with special reference to diffracted waves—aperiodic source, Sarva Jit Singh 209
——, Coupled Rayleigh–Love second modes, S. Crampin 229
——, Seismic investigations in the North Sea, B. J. Collette, R. A. Lagaay, A. R. Ritman & J. A. Schouten 363
——, Array and multi-station analysis of an earthquake in Cornwall : a comparative study, J. Cleary 437
Coode, A. M., An analysis of major tectonic features 55
Cornwell, J. D., Palaeomagnetism of the Exeter Lavas, Devonshire 181
Cornwell, J. D., The magnetization of lower Carboniferous rocks from the north-west border of the Dartmoor granite, Devonshire 381
Crampin, S., Coupled Rayleigh–Love second modes 229
Creer, K. M. & C. B. Like, A low temperature investigation of the natural remanent magnetization of several igneous rocks 301

PAGE

Earth—free oscillations of:

——, Polarization and total energy spectra of the eigenvibrations of the Earth recorded at Trieste, Maria Bozzi Zadro & Antonio Marussi 425

Earth—gravity field:

——, Regional gravity anomalies attributable to basic intrusions in orogenic belts, M. Brooks 29

Earth—physics of the interior:

——, Diurnal Earth tides and the Earth's liquid core, P. Melchior 15
Evans, M. E., A palaeomagnetic study of the Gaberones granite of Botswana .. 491

Geodesy—physical:

——, Truncation errors in the Stokes and Vening Meinesz formulae for different order spherical harmonic gravity terms, L. de Witte 449

Geomagnetism:

——, The energy of confinement of a shielded magnetic dipole field, R. L. Carovillano & J. J. Maguire 23
——, An investigation of micropulsations at middle latitudes, W. F. Stuart & M. J. Usher 71
——, Interpretation of one-dimensional magnetic anomalies by use of the Fourier-transform, G. Gudmundsson 87
——, Charting magnetic dip poles and associated field patterns, D. G. Knapp .. 499
Gibson, I. L., The crustal structure of eastern Iceland 99
Grasty, R. L., J. Booker & E. C. Bullard, Palaeomagnetism and age of rocks from Easter Island and Juan Fernandez 469
Gudmundsson, G., Interpretation of one-dimensional magnetic anomalies by use of the Fourier-transform 87
Hunter, W., A. E. Brownlow & D. W. Parkin, Cosmic spherules in a Pacific core .. 1
Jain, S. & C. D. V. Wilson, Magneto-telluric investigations in the Irish Sea and Southern Scotland 165
Jeffreys, Sir Harold, Estimation of small changes in a function 111
Jeffreys, Sir Harold, Small changes in seismic distributions of velocity 113
Jeffreys, Sir Harold, A completeness theorem for expansions of a vector function in spherical harmonics 465
Johns, B. & N. Odd, On the vertical structure of tidal flow in river estuaries 103
Knapp, D. G., Charting magnetic dip poles and associated field patterns 499
Krs, M., On the palaeomagnetic stability of red sediments 313
Lagaay, R. A., B. J. Collette, A. R. Ritman & J. A. Schouten, Seismic investigations in the North Sea 363
Like, C. B., An examination of several igneous rocks by X-ray and thermomagnetic techniques 67
Like, C. B. & K. M. Creer, A low temperature investigation of the natural remanent magnetization of several igneous rocks 301

Magnetic properties of rocks:

——, An examination of several igneous rocks by X-ray and thermomagnetic techniques, C. B. Like 67
——, The variation of magnetic properties among red sandstones, D. W. Collinson .. 197
——, A low temperature investigation of the natural remanent magnetization of several igneous rocks, C. B. Like & K. M. Creer 301
——, On the palaeomagnetic stability of red sediments, M. Krs 313
——, Correlation of petrology and natural magnetic polarity in Columbia Plateau basalts, R. L. Wilson & N. D. Watkins 405
——, The magnetic and petrologic properties of a basalt column, D. T. A. Symons .. 473
Maguire, J. J. & R. L. Carovillano, The energy of confinement of a shielded magnetic dipole field 23
Marussi, Antonio & Maria Bozzi Zadro, Polarization and total energy spectra of the eigenvibrations of the Earth recorded at Trieste 425

PAGE

Mathematics:

——, Estimation of small changes in function, Sir Harold Jeffreys 111
——, A completeness theorem for expansion of a vector function in spherical harmonics, Sir Harold Jeffreys 465
——, Table for Fisher's test of significance in harmonic analysis, A. A. Nowroozi .. 517
Melchior, P., Diurnal Earth tides and the Earth's liquid core 15

Meteorites:

——, Electron microscopy of biological-like structure in the Orgueil carbonaceous meteorite, W. C. Tan & S. L. VanLandingham 237
Nowroozi, A. A., Table for Fisher's test of significance in harmonic analysis 517

Oceanography:

——, Cosmic spherules in a Pacific core, A. E. Brownlow, W. Hunter & D. W. Parkin 1
——, Measurements of the orbital velocities of sea waves and their use in determining the directional spectrum, K. F. Bowden & R. A. White 33
——, On the vertical structure of tidal flow in river estuaries, B. Johns & N. Odd .. 103
——, An analysis of annual sea level variations in European waters, J. R. Rossiter .. 259
Odd, N. & B. Johns, On the vertical structure of tidal flow in river estuaries 103

Palaeomagnetism:

——, Palaeomagnetism of the Exeter Lavas, Devonshire, J. D. Cornwell 181
——, The intensity of the tertiary geomagnetic field, P. J. Smith 239
——, The intensity of the ancient geomagnetic field : a review and analysis, P. J. Smith 321
——, A new palaeomagnetic result from the lower Cretaceous rocks from the north-west border of the Dartmoor granite, Devonshire, J. D. Cornwell 381
——, A stability index of remanence in palaeomagnetism, D. H. Tarling & D. T. A. Symons 443
——, Palaeomagnetism and age of rocks from Easter Island and Juan Fernandez, J. Booker, E. C. Bullard & R. L. Grasty 469
——, A palaeomagnetic study of the Gaberones granite of Botswana, M. E. Evans .. 491
——, Self-reversal and field reversal in palaeomagnetism, J. B. Wright 511
Parkin, D. W., A. E. Brownlow & W. Hunter, Cosmic spherules in a Pacific core .. 1

Report of meeting:

——, World Magnetic Survey : report of a colloquium held at Herstmonceux, 1966 October 4, 5 and 6 521
Ritsema, A. R., B. J. Collette, R. A. Lagaay & J. A. Schouten, Seismic investigations in the North Sea 363
Rossiter, J. R., An analysis of annual sea level variations in European waters 259
Schouten, J. A., B. J. Collette, R. A. Lagaay & A. R. Ritsema, Seismic investigations in the North Sea 363

Seismology:

——, Small changes in seismic distributions of velocity, Sir Harold Jeffreys 113
——, The generalized problem of Lamb. I. The reflection and transmission of pressure and shear waves generated by an explosion in a two layered spherical Earth, G. E. Tanyi 117
——, The generalized problem of Lamb. II. Generalized Stoneley waves in a fluid–solid spherical interface, G. E. Tanyi 149
——, The generalized problem of Lamb. III. On a space–time representation form for generalized Rayleigh and Stoneley waves, G. E. Tanyi 161
——, Point source in a layer overlying a semi-infinite solid with special reference to diffracted waves—aperiodic source, Sarva Jit Singh 209
——, Coupled Rayleigh–Love second modes, S. Crampin 229
——, Seismic investigations in the North Sea, B. J. Collette, R. A. Lagaay, A. R. Ritsema & J. A. Schouten 363
——, Array and multi-station analysis of an earthquake in Cornwall : a comparative study, J. Cleary 437
